

# Boat - 6

## Learning Intentions

Students explain how natural events cause rapid change to Earth's surface. They describe and predict the effect of environmental changes on individual living things.

Students explain how scientific knowledge helps us to solve problems and inform decisions and identify historical and cultural contributions.

## Daradgee Specific Elaborations

This experience may require students to:

- investigate how changing the physical conditions for aquatic life impacts on their growth and survival
- consider how personal and community choices influence our use of sustainable practices eg. sustainable fishing and crocodile management
- use digital photography to represent and describe observations
