

Farm - 5

Learning Intentions

Students analyse how the form of living things enables them to function in their environments.

They use equipment in ways that are safe and improve the accuracy of their observations.

Daradgee Specific Elaborations

This experience may require students to:

- explain how particular adaptations help animals to survive eg. farm chickens vs scrub fowl
- describe adaptations of living things suited for our domestic and natural environments
- consider how best to ensure survival and growth of animals and plants
- consider how decisions are made to grow particular animals, plants/crops depending on environmental conditions
- identify and group farm animals according to similarities and differences
- use digital cameras to share ideas
