

Teaching at Daradgee Environmental Education Centre

Our Vision:

Growth. Connection. Opportunity for all.

Set the Scene	Experience	Reflect
<i>Students will find out what they are going to do. They learn the skills, knowledge and attitudes to engage in the experience.</i>	<i>Students will be engaged in experiences to develop new skills and a connection to self, others and place.</i>	<i>Students will draw learning out of the experience and transfer that learning to future experiences.</i>

Our students are:

Valued

Supported

Engaged

The students:

Are engaged intellectually, emotionally, socially, spiritually and/or physically

Pose questions, investigate, experiment, solve problems, assume responsibility and are creative

Are able to take initiative, make decisions and be accountable for results

The experiences:

Are carefully chosen

Are supported by reflection

Include the possibility to learn from successes, natural consequences and mistakes

The teacher:

Recognises and encourages spontaneous opportunities for learning

Uses fun and enjoyment to engage students

Develops and models positive connections
